● Bundled Resources

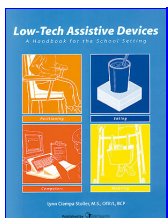

Some things just go together! Peanut butter and jelly, dogs and cats, [Ginger Rogers and Fred Astaire](#) ...you get the idea. Among the many resources published by Therapro, some of them fit a common purpose and just go together. So, we decided to offer Therapro product bundles of things that go together at attractive prices.

Our [Fine Motor Bundle](#) offers an endless variety of fine motor activities using either easy-to-find materials or none at all! In the same vein, our [Sensory Bundle](#) is designed to help children face sensory challenges in daily activities and experience sensory activities as fun. For a resource that includes both motor and sensory activities and can be used with ages ranging from preschoolers to adults you cannot beat the [Drive Thru Menu Bundle](#). For fun while learning we put together a [Games Bundle](#); [NOVENOPs](#) for language, [TRUNKS](#) for motor and working memory, and [Rush Hour, Jr.](#) for visual-spatial perception.

For occupational therapists who work in the schools and practice (or plan to practice) an inclusion model, we have bundled 3 publications, [Fine Motor Skills in the Classroom](#), [Curriculum Based Activities in Occupational Therapy](#), and [Low Tech Assistive Devices](#). We consider this bundle as an [Essential Resource for Your School Practice](#).

Karen Conrad Weihrauch, PhD, OTR/L
President, Therapro

Details on all Therapro offerings can be found at [www.therapro.com](#) and [our blog](#). You can also follow us on [Facebook](#), [Twitter](#) and [Pinterest](#) or [contact us](#) with any feedback or questions.
