● Preview AOTA 2013

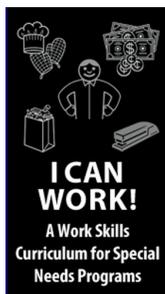

We always look forward to the [American Occupational Therapy Association Annual Conference and Exhibition](#). Our exhibit (Booth# 701) always attracts a large and diverse group including many old friends and colleagues. This year our anticipation is heightened with the introduction of 2 new products: [Here's How I Write: A Child's Self-Assessment and Goal Setting Tool](#) and [I Can Work: A Work Skills Curriculum for Special Needs Programs](#).

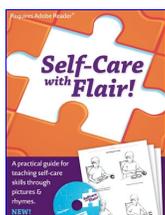

[Here's How I Write](#) is a criterion-referenced handwriting self-assessment tool developed to engage children in the handwriting evaluation and intervention process. Originally developed in Israel as a Hebrew language assessment tool by Sarina Goldstand, MSc, OTR and Debbie Gevir, MSc, OTR, this newest, English language version was adapted from the original by Sharon Cermak, EdD, OTR/L, FAOTA and Julie Bissell, OTD, OTR/L, ATP. Here's How I Write will be presented for the first time as a [Poster Session at the AOTA Conference](#) (Thursday, April 25 from 1 to 3 PM).

[I Can Work](#) is a work-skills program consisting of five modules designed to integrate communication skills along with hands-on pre-vocational training in the areas of Job Readiness, Clerical, Retail, Food Service and Grocery. It was developed by Angela Mahoney, M.Ed. who has used it successfully in private and public school settings. The Curriculum is intended for middle school, high school and young adult populations with special needs who are interested in working in their community.

Authors Bhanu Raghavan, MS, OTR/L and Virginia McDonald, OTR/L, who first presented their [Self-Care with Flair Program](#) at last year's AOTA Conference, are returning and will present [Self-Care with Flair! A Practical Tool for Teaching Self-Care Skills to Children with Autism and Other Disabilities](#) (Thursday, April 25, from 12:30 to 3:30 PM).

Specials

10% off this month!

1. [Self-Care with Flair](#)
2. [I Can Work](#)
3. [Here's How I Write](#)
4. [Pediatric Feeding Disorders](#)

Featured Products

Froggy Feeding Fun

Squeeze to open Froggy's mouth and strengthen fine motor muscles! Roll a cube to determine which flies to pick up - or feed him using the other hand to encourage bilateral integration.

Super Sorting Pie

Reinforces fine motor skills when children use jumbo tweezers, featuring depressions that guide little hands into the proper pincer grip. Provides visual clues, thanks to the sorting cards that slip into the bottom of the pan.

Tweezers, Jumbo and Gator

The key to fine motor skills is developing the thumb-forefinger pincer grasp. Use with manipulatives or other small objects. Comes in 6 colors and include resealable buckets for easy storage.

Tricky Fish

These promote motor, visual, and perceptual skills. Includes a double sided grooved board to use with both hands. One side is open to use with a large ball and the other side has a transparent cover to keep the small ball from falling off.

If you plan to be in San Diego, CA please be sure to stop at our booth. Say hello to Karen, Lauren and Paul. Visit with our authors and see what else is new.

*Karen Conrad Weihrauch, PhD, OTR/L
President, Therapro*

Details on all Therapro offerings can be found at www.therapro.com and [our blog](#). You can also follow us on [Facebook](#), [Twitter](#) and [Pinterest](#) or [contact us](#) with any feedback or questions.

● April Sale Bin
