• What's New for Hand Function?

We only select a new product when we believe it can serve a therapeutic purpose. Here are some recent selections, all related to hand function, with the reasons we think they are worthy of your consideration.

[The WriteRight Grip](#): It's a pencil grip. No, it's a mechanical pencil. No, it's BOTH! All that and an eraser too!

[The Therapro #4 Pencil](#): Back by popular demand, it looks like an ordinary pencil. With a soft lead (#4), it helps low-pressure writers write visibly and with a large diameter, it helps to reduce breakage by high-pressure writers.

The [Tots First Crayons](#) are another great tool for the developing hand. The crayon has tactile cues to encourage pincer grasp but you can grasp it any way you want.

[Finger Crayons](#) - always popular for how they help develop grasp, they are now available in a 30 count variety of colors.

[My Rub Art](#) is a true sensory-motor activity which incorporates lots of tactile input in combination with crayon use. You can hang the finished art on any available vertical surface.

[EvoOTware](#) is a set of OT designed tableware (fork, knife and spoon). These utensils have handles that can be functionally grasped from any position. Tactile cues help guide the hand and reduce slippage.

Take a look a closer look...

*Karen Conrad Weihrauch, PhD, OTR/L
President, Therapro*

Featured Products

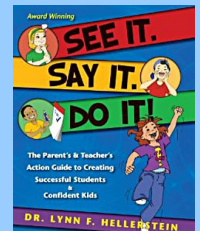

Monkey Balance Board

The Monkey Balance Board promotes hours of fun and gross motor skill development for little ones. Step on top of the sturdy wooden board with a brightly colored monkey on top and learn balance and coordination.

See It, Say It, Do It

After years of working as a Developmental Optometrist, the author presents in this book all the methods of treatment, besides vision therapy, that helped make her patients VERY successful in life activities.

Spaghetti Ball

The many colorful strands of the Spaghetti Ball can be stretched out in all directions. So soft you cannot put it down! A great, quiet fidget.

feedback or questions.

• 2014 Assessments Catalog

The 2014 Assessments Catalog is now available. Click [here](#) to see it online. Call or [email](#) us if you would like the print version.

• July Sale Bin

Please view our [Sale Bin](#) for all of our July specials. These are 1st quality products that are either overstocked or have been discontinued. Please look frequently, as we update this often.

Bubble Illusion

This is a great therapeutic product - but you would not know it because it is so much fun! Stabilize the octagon shape piece (like stabilizing your paper for writing) and with the other hand, twist the other end so the iridescent mylar strands create an optical illusion of an ever changing bubble. Now, twirl it faster and you create the illusion of 2 small bubbles. A great bilateral, midline activity!

Seminars

All seminars are free, and are held Saturdays from 9-11 AM in our Showroom.

Upcoming confirmed events:

August 17, 2013
