• Back to School: Checklist of School Supplies

For children with special needs, planning [Back to School](#) can be challenging. At Therapro we offer a lot of resources that make the classroom environment more conducive to learning.

Here's our recommended checklist to consider:

- [Wedge and Disc Cushions](#)—help some students calm down and focus.

- [Inclined Writing Surfaces](#)—help improve posture and position the hand for handwriting success.

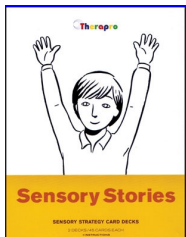

- [Visual Guides](#)—a variety of sized and colored transparencies to help students keep on track when reading.

- [Hand Tool Kit](#)—an assortment of helpful hand tools to give students opportunities to try the tools and choose what gives them the most comfortable, efficient and functional grasp.

- [Pencil & Grip Samplers \(I and II\)](#)—assortments of adaptive pencils and grips to choose which ones work best for each student.

- [Raised Line Learning](#) and [Writing Papers](#)—from learning ABCs, addition, subtraction & multiplication to writing an essay, raised lines provide useful cues that improve legibility.

- [Highlighter Papers](#)—helps improve letter placement, legibility, etc. for students who benefit from visual cues.

- [Fidget Kit](#)—an assortment to find the one(s) that works the best for each student.

- [Time Timer](#)—helps to teach students about time and eases classroom transitions

- [Sensory Stories Strategies Cards](#)—a simple way to help students improve self-regulation skills.

This checklist does not represent everything you will need for Back to School. We think of these items among the essentials for getting started.

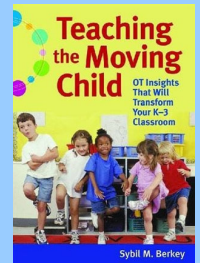

Specials

1. [I Can Work! \(10% off\)](#)
2. [Fine Motor Olympics Set \(10% off\)](#)
3. [Sensory Connection Program Set \(10% off\)](#)

Featured Products

[Teaching the Moving Child](#)

Every teacher and occupational therapist should know how to weave strategies from occupational therapy (OT) into the everyday academic instruction.

[Time Timer Plus](#)

As time elapses, the red disk gradually disappears under a clear and durable lens, making the new Time Timer PLUS an ideal time management tool for all ages.

[Living Sands](#)

The sensation is somewhat similar to cookie dough, yet it is totally dry to the touch. Mold it into hard durable shapes, and with a soft touch, it will break apart.

[Chewy Skool Kid Stretchy Pendant](#)

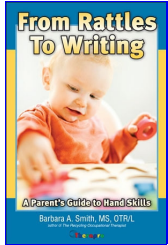

The first of its kind, this stretchy Chewable Necklace will become a favorite among chews! It is softer than other sensory chews but just as strong and resilient. One side has raised textured bumps while the other side has indented wavy lines that stimulate the mouth differently.

Karen Conrad Weihrauch, PhD, OTR/L
President, Therapro

Details on all Therapro offerings can be found at www.therapro.com and [our blog](#). You can also follow us on [Facebook](#), [Twitter](#) and [Pinterest](#) or [contact us](#) with any feedback or questions.

• Therapro Author to Speak in Ohio

[From Rattles to Writing](#) and [The Recycling Therapist](#) author, Barbara Smith will speak August 13, 2013 at the Ohio Institute for [OT/PT School Based Practice Annual Conference](#) in Columbus. Her books will be for sale there at the Therapro booth. Be sure to stop by and say hello to the Therapro representative, Filomena Connor.

• August Sale Bin

Please view our [Sale Bin](#) for all of our August specials. These are 1st quality products that are either overstocked or have been discontinued. Please look frequently, as we update this often.
