## • Preview of Coming Attractions

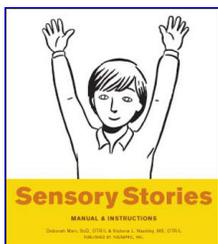

We have been fortunate in the past to have wonderful speakers for Therapro's [Saturday Morning Seminar Series](#). This year's roster of speakers is just as impressive.

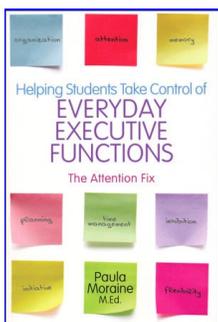

We kickoff in August with [Teresa May Benson](#), speaking on [Praxis Disorders and Intervention](#). Teresa contributed 2 chapters to [Autism Interventions: Exploring the Spectrum of Autism](#), the most comprehensive and definitive book available on this important subject. Our September speaker is [Kayla Daly](#), a certified music therapist, who will present [Clinical Music Therapy with Children Diagnosed with Special Needs](#).

Therapro author [Victoria Nackley](#) will speak in October on [Using Sensory Stories and Sensory Strategy Cards](#) as part of a Sensory Diet to Promote Self-Regulation. In November [Diane Long](#), creator of Therapro's [TRUNKS game](#), will speak on [Working Memory: An Overview with Implications for Learning and Socialization](#). Incidentally, TRUNKS is a fun-filled game which incorporates tasks of working memory. To conclude 2014, [Sarah Ward](#), a speech-language therapist, will speak on [Helping Students Develop Executive Functioning Skills](#).

Some of our speakers come from afar and some from right here in the New England area. All bring a wealth of knowledge and experience. We plan to videotape some of these presentations, so be sure to visit our website to see portions of these informative sessions. We are already planning for another impressive series of Saturday Morning Seminars in 2015.
