### • [Back to School: Checklist of School Supplies](#)

For children with special needs, planning [Back to School](#) can be challenging. At Therapro we offer a lot of resources that make the classroom environment more conducive to learning.

Here's our recommended checklist to consider:

- [Sensory Stories Strategies Cards](#)—a simple way to help students improve self-regulation skills-many are related to school activities.
- [Computer Access](#)—help students access a computer other than through a traditional keyboard, mouse, and screen.
- [Writing Readiness Workbooks](#)—Prepare children for handwriting with these great early developmental workbooks.
- [Wedge and Disc Cushions](#)—help some students calm down and focus.
- [Inclined Writing Surfaces](#)—help improve posture and position the hand for handwriting success.
- [Visual Guides](#)—a variety of sized and colored transparencies to help students keep on track when reading.
- [Chewables](#)—a large variety to choose from, great for calming, alerting and for stress relief.
- [Pencil & Grip Samplers \(I and II\)](#)—assortments of adaptive pencils and grips to choose which ones work best for each student.
- [Raised Line Learning](#) and [Writing Papers](#)—from learning ABCs, addition, subtraction & multiplication to writing an essay, raised lines provide useful cues that improve legibility.
- [Highlighter Papers](#)—helps improve letter placement, legibility, and neatness for students who benefit from visual cues.

### Featured Products

#### [Flexitables](#)

An ingenious and simple idea to help children learn math! A soft flexible plastic folding table with vertical and horizontal channels allowing children to continuously fold the table again and again without it being damaged. Addition/Subtraction, Multiplication/Division, and Fraction/Percentage/Decimal!

#### [Silent/Audible Visual Time Timer](#)

The Time Timer provides the ability to judge how much time is left without having to know how to tell time.

#### [Fingermania!](#)

Fingermania is a comprehensive hand skill program for children from preschool through 3rd grade with mild to moderate fine motor deficits.

#### [Flip Flop Chew](#)

This Flip Flop sensory chew is "cool" in both form and function!

- Fidget Kit**—an assortment to find the one(s) that works the best for each student.
- Time Timer**—helps to teach students about time and eases classroom transitions

This checklist does not represent everything you will need for Back to School. We think of these items among the essentials for getting started.
