• What's New?

We are always adding new products to the Therapro website and eventually to our [catalogs](#). We like to remind you, our readers, about twice a year. But you can click onto the [New Product](#) section, located at the top of the left hand side bar, any time to see what's new.

Here are some of our new items that we do not want you to miss. For the classroom we've added two new pencil grips - [The Pinch Grip](#) and [The Bumpy Grip](#) - designed by the makers of [The Pencil Grip](#). They also developed [Safety Scissors](#) that are safe and actually cut well! Take a look at the [Bouncy Bands](#), the ultimate foot fidget to help students stay alert and focus. No need for you to improvise - Bouncy Bands are an economical ready-made solution. For computer access, [Big Keys](#) offer a big solution!

We have also added several products for Early Literacy and Vocabulary Building; the [Alphabet Picture Cards and Vocabulary sets](#), one for Kindergarten and one for First Grade. The [Vowel Practice Pictures](#) are another great tool for language development. New tools for designing sensory diets include the [Spin Disc](#) which gives intense vestibular input for self-regulation. The [Tactile Tiger Hand Fidget](#) says it all. Our [Weighted Plush Snake Wraps](#) are calming and fun to wear!

Last but not least is the newest chewable, the [Flip Flop chew](#). Chewies are one item you can never have enough of.
