• What is Praxis?

"The ability to make an adaptive response to an environmental demand."

- Teresa May-Benson, ScD, OTR/L, FAOTA

What a treat! We began our [2014-2015 Saturday Seminar Series](#) with an outstanding presentation by a distinguished speaker. [Teresa May-Benson](#), Executive Director of the [Spiral Foundation \(Sensory Processing Institute for Research and Learning\)](#) brought clarity to a very complex subject within a two-hour presentation ([for a review, see Filomena Connor's write up](#)). To understand praxis one must combine ideas from sensory integration theory with ideas from cognitive science. While a complete discussion of praxis is beyond the scope of our newsletter, we can recommend two chapters: *Praxis Disorders* and *Interventions for Praxis Disorders*, in [Autism Interventions: Exploring the Spectrum of Autism - 2nd Edition](#), written by Teresa May-Benson.

*Karen Conrad Weihrauch, PhD, OTR/L
President, Therapro*
