Featured Products

Chosen to represent the upcoming topics of our Seminar Series

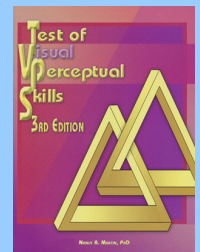

[Infant Mirror Stand \(Early Intervention\)](#)

A great way to encourage little crawlers to get a first view of themselves. Infants will delight in this early body awareness activity.

[TVPS-3 \(Assessments\)](#)

Now, just one test covers all of the ages that were previously covered by the tests TVPS-R and TVPS-UL-R. It remains an easy to use assessment to determine the visual perceptual strengths and weaknesses of students aged 4-0 through 18-11.

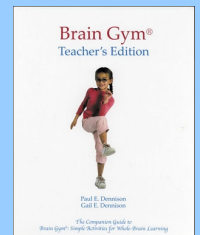

[FunBites \(Feeding\)](#)

Cuts kids' food into fun-shaped bite-sized pieces! Each FunBites Pack quickly creates small bites and a matching popper top that pops food instantly so hands are clean, food is untouched.

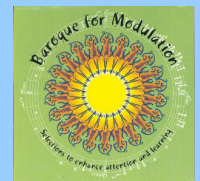

[Brain Gym Teacher's Edition \(Brain Fit\)](#)

A Companion Guide to Brain Gym: Simple Activities for Whole-Brain Learning. Revised in 2010, this new version has been greatly expanded. A very practical book that is a must-have for any classroom!

[Baroque for Modulation \(Listening Program\)](#)

This recording utilizes the qualities of structure, order, and predictability found in music from the Baroque period, providing an excellent tool for working with children and adults experiencing difficulties with sensory modulation.

Browse through our [Sale Bin](#) for some great deals on discontinued or overstocked items. We update this frequently, so check back often!
