What is it we are always looking for? (Sometimes they find us!) New Products, of course! Here's a list of some new additions to our website which will soon be included in a Therapro [print catalog](#).

Featured Products

[Zen Rocks Chewies](#)

A stylish new twist on teething jewelry for mom and baby. However, they are attractive for older children to wear and great for sensory seeking, non-aggressive chewing.

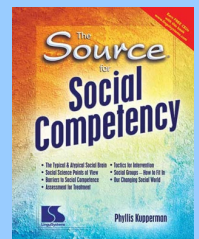

[Spring Action Blunt Tip Scissors](#)

A simple plastic spring in the handle allows the scissor to operate like a regular scissor or to spring the scissor open after a cutting motion.

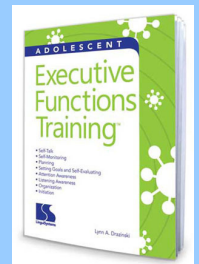

[The Source for Social Competency](#)

A great workbook that addresses the basic skills children need to learn. Each activity page identifies which category it addresses. Each section provides meaningful practice.

[Executive Functions Training - Adolescents](#)

Executive function is the ability to self-regulate thoughts and organize behavior. This program has a unique organization and instruction method specifically designed for individuals with executive function disorders.

Seminars

All seminars are free, and are held Saturdays from 9-11 AM in our Showroom.
