● Assessing Visual-Motor and Visual Perception Assessments

On Saturday, February 28th, Therapro's President, Karen Conrad Weihrauch, PhD, OTR/L tackled the task of examining 14 standardized [visual-motor and visual perception assessments](#) as part of Therapro's [Saturday Seminar Series](#). For more information you can follow Dr. Weihrauch's [power point presentation](#) and read a review at [Filomena's Corner](#). As an added feature, each of the 14 assessments discussed was available for participants to examine and determine how it might fit their practice. The presentation provoked much discussion among the participants and many lingered in small groups sharing their experiences and needs.

*Karen Conrad Weihrauch, PhD, OTR/L
President, Therapro*

● GOAL now available from Therapro

We are pleased to announce that the [Goal-Oriented Assessment of Lifeskills \(GOAL\)](#) can be purchased from Therapro. Created by Lucy Jane Miller, PhD, OTR, Thomas Oakland, PhD, and David S. Hertzberg, PhD, the GOAL is an innovative evaluation of functional motor abilities needed for daily living. It consists of 7 fun and motivating tasks based on real occupations of a child's daily life. It was standardized using a sample of more than 600

Featured Products

Trace the 8s

Trace the 8's is designed to enhance crossing midline, visual-motor skills, scanning skills, brain integration, oculomotor skills, working memory and attention and focus.

Day and Night

A great perceptual activity! Copy the patterns shown on the enclosed cards with the colorful 9 wooden pieces.

Race the 8s

These large red marble mazes are great for eye tracking, motor planning, bilateral integration and midline crossing.

Seminars

All seminars are free, and are held Saturdays from 9-11 AM in our Showroom.

Upcoming confirmed events:

March 14, 2015

[Working with Feeding Problems in the School Setting](#)

Speaker: Lisa van Gorder, OTR/L, CEIS

children ages 7 to 17. Statistical analysis of the GOAL provides clear evidence that it is a useful tool for distinguishing typically developing children from clinic-referred children, including those with sensory and motor disorders, autism spectrum disorders, ADHD, and learning disabilities.
