### ● Finding Summer's Balance

At the beginning of the summer we like to remind parents and therapists that while summer should be fun for our children, we should also try to maintain skills that were acquired during the school year.

Certainly [Diana Henry's products](#) can fill the bill. There are great options for all groups, infants, toddlers, elementary students and even teens. And don't forget the [Alert Program Game](#), [Keeping On Track: Alert Program Companion Board Game](#). What a fun way to work on self-regulation!

Let children create their own games! Have them set up obstacle courses using [cones](#), [hands and feet](#), and [arrow](#) markers. Add a [balance activity](#) and/or a [bean bag](#) activity. Children will figure out the "just right challenge."

Our favorite skill games are the ones that we have developed at Therapro. [Letter Treasure Hunt](#) for early literacy, [NOVENOPS](#) (Noun, Verb, Noun, Phrase, Sentence) for early language, and [TRUNKS: The Game for Sequencing and Memory](#).

Let's have fun this summer!

### Featured Products

**Featured Summer Products**

#### Sensational Fun

Help children face sensory challenges with these fun activities! Includes 35 beautifully illustrated cards with over 100 activities for parents and teachers who are looking for some great sensory games using common objects found in the home and school.

#### Language Card Tins

Each Language Card Set features 40 clearly presented, full-color photographs or illustrations on large 6" x 5 1/2" cards to make recognition easier. Activity guide included with each set.

#### Understanding Emotions

Teach your student emotional intelligence (EQ). This emotion set is one of a kind. A superb quality photograph on the front of each card teaches a child to label emotions. The back of each card teaches a child how these emotions feel and when they could occur.
