### • Helping Students Make the Grade

One of our favorite speakers, [Tere Bowen-Irish, OTR/L \(allthepossibilitiesinc.com\)](#), returned to Therapro on [Saturday, September 19th](#) to share her dynamic and constantly evolving school-based practice philosophy and strategies. Tere is a nationally respected speaker who loves to share treatment ideas from her extensive experience working in public and private school settings. She is best known for her [Drive Thru Menu Suite of Exercises](#), which address self-regulation strategies and movement to help promote students' success in the classroom. Her background in pediatrics and psychiatry has provided a foundation for the development of effective treatment strategies for students from preschool age through high school.

Tere has noted a general increase in anxious, stressed students in her caseload. She has found that these students benefit from visualization activities to promote calming and mindfulness. To learn more about how Tere incorporates these activities into her treatment, take a look at [Filomena's Corner](#) and our [YouTube Channel](#) to see video clips of Tere's seminar.

*Filomena Connor, MS, OTR/L*
